Assistant Office Manager

Dear Patient:

This letter is to remind you of your appointment with Retina Specialists of North Alabama. At Retina Specialists of North Alabama, we provide services that range from medical retinal evaluations and diagnostic testing to laser treatment, microsurgery, intravitreal injections and ocular reconstruction.

Your initial examination and testing will be comprehensive. Since we endeavor to complete all tests and make recommendations at the time of your examination, please allow several hours for your initial visit.

Prior to your examination, your eyes will be dilated. For your safety, it is best to plan for someone to drive you home from our office. The dilation will also prevent you from being able to focus and reading may be difficult for several hours following your examination. You may wish to take this into consideration in your work schedule.

In preparation for your appointment, please provide us with the following information:

Fill out the enclosed forms and bring with you to your appointment.

If you would like us to file an insurance claim on your behalf, please bring all your current insurance cards.

Prior to your visit, please obtain any authorization or referral that your insurance company may require.

Please bring a list of all your current medications

Please bring your drivers license or photo ID.

As our patient, we know that you are counting on our experience and training to help you make the best decisions regarding your vision. We care about your well being and want to work with you to achieve the best possible result. While technology and clinical skills are important, we are also sensitive to the concerns and needs of each individual. At Retina Specialists of North Alabama, continuous professional care for each patient is assured through our team of physicians, technicians, and office staff who work closely with both you and your referring doctor.

If you have any questions prior to your appointment, or if you are unable to keep your appointment, please call our office at 256-539-8851 or 1-800-228-6118.

Sincerely,

Sue Johnson, COT
